

## CITY COAL SUPPLY IS DISCUSSED BY BOARD OF WORKS

### Bids on Proposed New Heating Are Submitted at Meeting Monday.

With but a 60 days coal supply on hand at the city hall and the miners' strike still unsettled the local situation was given considerable attention at the meeting of the board of works held Monday in the office of Mayor William W. Dodge. It was suggested by F. P. Howlett, president of the board, that the city buy several cars of West Virginia coal now being mined by the miners' strike. However, action was postponed on the matter until a later meeting.

Bids on the proposed new heating plant for the city hall were submitted by the Colbert Hardware Co., C. L. Barnard & Son and the George White Plumbing Co. and referred to Supt. A. R. Klein for recommendation.

The question of parking autos in front of factory entrances and office buildings was brought up by F. G. Eberhart and Mr. Howlett, who stated that at times the roadways became so congested that it would be impossible for fire trucks to pass in case of a fire. It was recommended that the matter be referred to the chief of police and that safety zones be established throughout the city.

The matter of allowing carnivals to come to the city was discussed by the board but no official action was taken. However, the board seemed

to be in favor of allowing them in the future providing they brought no really objectionable shows with them.

### MURPHY TRIAL JURY

CHICAGO, July 31.—(By U. P.)—The attempt to dismiss the jury in the trial of the "big three" in Chicago labor circles failed today when Judge Taylor ruled that the trial must go on.

Defense attorneys petitioned that the jury be discharged when they claimed to have learned that one of the jurors was a friend of a state witness.

The state is expected to finish its case against "Big Tim" Murphy, Fred Mader and Con Shea tomorrow. The defense will then attempt to refute the evidence presented linking the "big three" with the reign of terror which ended in the deaths of two policemen.

The state's first witness, Harry Payman, police investigator, threw a bomb into the Murphy-Mader plans when he took the stand.

He testified that Murphy and Mader were often seen together at the building trades council headquarters. He also told of a conversation between the two when he alleged they planned to move the council offices to Murphy's office.

Murphy had declared that he and Mader were not closely connected. Murphy alleged he had nothing to do with the council.

Payman also testified that he saw Murphy and John Miller, alleged death car driver, together on several occasions. Miller previously stated on the stand that he did not know Murphy.
